Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Contributions to the Physiology and Pathology of the Breast and Its Lymphatic Glands The investigations describe in this volume were undertaken for the Medical Department of the Privy Council by way of inquiring into the causation of malignant tumours. An earlier investigation, on the origin of secondary tumours in the liver, formed the subject of a paper in the Medical Officer s Report for 1874. This paper does not fall within the plan of the present work, and I have not reprinted it. The five chapters on physiological and pathological processes of the breast are reprinted, with additions and corrections, from the Report of 1875, and the chapter on Tumour-Infection of Lymphatic Glands from the Report of 1876. The chapters on development were originally published in the Journal of Anatomy and Physiology, Vol. XI., 1876. The investigations were made during Mr Simon s term of office, and I enjoyed from time to time the opportunity of conversing with him on the subjects of them. The scope of pathological inquiry which he set before me was of the widest kind, and he strongly encouraged the physiological direction that the work has taken. I desire gratefully to acknowledge his never failing interest in the details of my investigation during its progress, and the assistance that I have derived from his criticisms.
