Prentice Hall, 2002. Hardcover. Book Condition: Neu. Gebraucht - Sehr gut Unbenutzt. Schnelle Lieferung, Kartonverpackung. Abzugsfähige Rechnung. Bei Mehrfachbestellung werden die Versandkosten anteilig erstattet. - How to maximize the value of your next Web-centered initiative Drawing on powerful lessons from recent years, this book identifies the critical "business, people, process, and technology" elements associated with successful Web-centered IT and business initiatives. Plus it shows exactly how to integrate all four elements to deliver maximum value. "Web-Based Infrastructures: A 4D Framework" outlines both the unique and "classic" issues that surround Web-based IT initiatives, then presents critical process solutions that transcend technology to cover every dimension of the business. In addition, it defines a solid and powerful 4D framework that will support virtually any project or initiative. Its features include: Leveraging IT best practices to define and deliver Web-centered businesses and business processes; A phased, disciplined project management approach to creating value; New value chain methodologies, analysis, and redesign techniques for the Web-centered enterprise; High-velocity implementation solutions built upon the reality of constant change. "Web-Based Infrastructures: A 4D Framework" will dramatically improve the way IT professionals and managers work together to design, implement, and manage technology infrastructure, and how they use that infrastructure for competitive advantage. pixel 283 pp. Englisch.
