Reviews

This type of publication is every thing and helped me seeking ahead and much more. It usually fails to charge too much. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Juliet Mertz)

METAMORPHOSES OF LIGHT: LIGHTNING, RAINBOWS AND THE NORTHERN LIGHTS, A SPIRITUAL-SCIENTIFIC STUDY

DOWNLOAD PDF

Temple Lodge Publishing. Paperback. Book Condition: new. BRAND NEW, Metamorphoses of Light: Lightning, Rainbows and the Northern Lights, A Spiritual-Scientific Study, Walter Buhler, 'Goethe called colour the deeds and sufferings of the light - victorious deeds when it pierces matter, and suffering when it endures the darkness in matter. Indeed, there is no greater contrast in the whole cosmos than that between matter and light .' Having spent time in the Arctic Circle in Lapland - where, with the sky filled in a flood of colour, the midnight sun shines for weeks, and the long polar night is brightened by the shining northern lights - the author was left with unforgettable memories. Thinking through these experiences led to this short but penetrating work, a study of the pathways and metamorphoses of light from a global perspective. The essence of light is to shine - it rays out dynamically in all directions at an unimaginable speed, never resting. The nature of matter, in contrast, is heavy, static and condensed. But matter can also let light through, as with crystal, or in the transparent and flowing element of water, evaporation and even air. Water and air thus act as 'mercurial' factors, allowing the creative potential of light to appear in a diversity of colours. The 'deeds and sufferings of light' are further to be found in many phenomena of the inorganic world such as the northern lights. By seeing the laws within phenomena, Goethe approached an understanding of the etheric formative forces. The object of this book is the observation of nature's natural wonders using Goethe's methodical process. Apart from the rainbows, lightning and northern lights in the title, the author discusses the blue of the sky, the colours of twilight and the dewdrop, and halos and other light phenomena. The power...
